# CONDITION OF THE MARKETS

Chicago Wheat Was Wabbly, but the Closing Price Stronger at \$1.00 1-4.

Ream Was the Only "Bear" Who Bought, and This Was Supposed to Be to Cover His Line of Shorts-Maize Held Strong in Sympathy.

### MONEY, STOCKS AND BONDS.

Shares Contined to Rise Until the Report o New Stock in Hocking Valley Came. NEW YORK, Oct. 9 .- Money on call was easy, ranging from 4 to 5 per cent., the last loan being made at 4; closing offered Bt 4.

Prime mercantile paper 6@71/2 per cent. Sterling exchange was quiet and steady at \$4.79% for sixty-day bills and \$4.83% for demand.

The total sales of stocks to-day were 227,414 shares, including the following: Atchison, 49,000; Chicago Gas, 11,700; Erie, 14,335; Hocking Valley, 10,750; Missourl Pacific, 9,800; North American, 4,530; Northern Pacific preferred, 10,500; Reading, 3,200; St. Paul, 13,816; Union Pacific, 8,400.

The stock market to-day was practically a repetition of those of the last two days, and was in the main a steady contest between the "bear" and "bull" factions among the local and professional trading element, and, after mild fluctuations in both directions, the advantage rests with the latter party. The operations of the past few days have undoubtedly added largely to the outstanding "short" interest in the market, and the aggregate is now large, while there is no stock pressing for sale on "long" accounts. Outside of the advices in regard to the gold movement there was nothing in the news of the day the market, and such changes as were made were in most cases the result only of the operations of the opposing factions of speculators. The opening was heavy and lower in sympathy with the lower London market. Atchison bore the brunt of the early pressure, but the entire list moved up slowly. These were among the specialties principally, and the Nickel-plate stock. Rock Island, Burlington and Missouri Pacific TOSS over 1 per cent. each. Prices slowly crept up in the general list until toward 2 P. M., when the highest figures of the day were attained. Then a rumor of a new issue of stock on the Hocking Valley caused a drop of nearly 112 per cent. in that stock. to which the rest of the list responded, and fractional concessions followed all along the line. Hocking Valley, however, after-ward recovered all of the loss, and the general list steadied. The market finally closed dull, but steady, at close to the best of the day.

The dealings in railroad bonds were bar-ren of special features, but the tone remained firm, without material change of note among the leading active shares. The total sales were only \$894,000. Government bonds have been dull, but firm. State bonds were dull and steady.

## TRADING AT CHICAGO.

While the Grain Pits Were Stronger the

"Bears" Were Generally Skeptical.

SHICAGO, Oct. 9 .- Wheat started out a the "wabbly" this morning, selling on both sides of last night's closing figures second the opening, then became strong, advancing about 14c, holding nearly all of it to the close. Early cables were conflicting. Those from Liverpool to the Board of Trade quoted the market as steady and unchanged, while private advices quoted at 401 penny higher, and London 6 pence up. New York reported a brisk foreign demand. and dispatches there said that sixty boatloads had been accepted by this morning on cable orders last night. Dispatches from Duluth reported 75,000 bushels taken there for export, or 1,000,000 bushels during the past two days. There was active buying on New York and Northwestern account, and by local "shorts," with the offerings rather light, with sellers conservative and cautious. News from the Northwest was conflicting, but the impres-

said to be proceeding rapidly, the late rains having put the ground in fine condition. Ream was a good buyer, but it is possible that he was simply covering "shorts," and he is known to have sold heavily around 98c and 99c a few days ago. Logan, Schwartz, Du-pee, Kennett, Hopkins and Lamson Bros. were among the best buyers, with Hutchinson's brokers. Hately Bros., Arthur Orr and Broseau liberal sellers. Milmine-Bodman bought early, but sold generously on the advance. December opened at 98 sc. sold to 99 sc, broke to 99 sc, then advanced with immaterial reactions to \$1.0012. In the afternoon it eased off some on realizing sales, going to \$1, but on stronger English cables, and a report that seventy boat-loads had been taken at New York for export and thirty at Boston, the price reacted to \$1.00 % and closed steady at \$1.00 %. The closing continental cables quoted Berlin 31e marks lower for October, Paris 10 centimes higher on November, but 15 centimes lower on January and April, with Antwerp 1212 centimes higher.

Corn was strong and higher, largely in sympathy with wheat, but partly on account of the small receipts, only sixty-seven cars having been inspected in where eighty were expected. Trade was slow. however, with Bartlett-Frazier, the best buyers, and Poole-Sherman liberal sellers. October opened at 5214c, touched 52%c, sold to 5812c without material recession; but weakened near the end of the session and closed at 53 sc. against 52 sc at the close yesterday.

Oats were neglected and the price remained steady. Hog products were weak and lower on free selling by packers and liquidation by December "longs," this, in the face of higher prices for hogs. The close shows a loss of 5@15c in the price of pork; .0212@.05c. in lard, and .0212c in ribs, except October, which is unchanged. The leading futures

#### mand; Western, 6@812c; part skims, 4@712c. DUN & CO.'S WEEKLY REVIEW.

Failures Are Numerous, but General Busi-

ness Prospects Are Picking Up. NEW YORK, Oct. 9.-R. G. Dun & Co.'s weekly review of trade says: From all parts of the West and South come advices that business is gradually improving, and the improvement is felt in Eastern centers. There is still a most encouraging absence in any trade of that speculative excitement and overconfidence which is so often a presage of disaster. Purchases are governed by unusual conservatism, and yet are large in volume. Failures are rather numerous, but are in nearly all cases the results of a long-continued commercial strain since the foreign disasters of last November. It is true that prices of nearly all manufacturing products are low and the margins for profit very narrow, while the competition is severe, but the volume of trade is larger than in any previous year, in spite of the fact that some branches of business are retarded. It is also true that collections in some quarters are slow, but

the latest reports from various sections are on the whole more favorable. The news regarding the chief industries is decidedly favorably. The iron industry is more firm in tone. It is felt that the delay in improvement of the demand for rails at present is the only barrier to a general advance. In copper there is uncertainty, with sales of lake at 12.35c. Tin is dull at 20,10c, and lead in moderate demand. The market for wool is quiet at Boston and elsewhere, but sales are not small, and receipts at the West greatly exceed last year's. Boston reports a good business and ample supplies of money. At Philadelphia more inquiry is seen for iron. At Cincinnati and Cleveland fair activity is noted,

year's; rye, ten times, and wool double; increase in dressed beef and hides, but decrease in other articles. Trade is improving at Omaha and at Minneapolis, where lumber advances with unprecedented sales,

and flour-mills are fully employed.

The output last week was the largest on record at St. Louis, where the demand for money shows strong trade in most lines. At Kansas City better weather gives steady employment, and at Denver. At the South the improvement is also general and heavy receipts of cotton are noted at Savannah, Charleston, Galveston and New Orleans. The pause in stock speculation hinders the placing of securities for railroad extensions and other improvements, but it is nevertheless healthy. Speculation in breadstuffs have been less active, but wheat has advanced nearly 2c, with sales of only twenty-nine million bushels, while corn has declined 14c and oats 4sc. Cotton is slightly stronger and oil 3c higher, but coffee has fallen 14c and lead

is a shade lower. The treasury has made but slight change in the supply of currency. With large receipts of gold since Oct. 1, and more coming, the shipments to the interior have been lessened for the moment. But markets at Chicago, St. Louis and some other Western points show a stronger demand, indicating that larger shipments from the East will presently be required. On the whole, the outlook for industrial progress is decidedly satisfactory.

The business failures occurring throughout the country during the last seven days number 240, as compared with the total of 230 for the last week. Corresponding week of last year, 251.

#### TRADE IN GENERAL.

Quotations at Philadelphia, Balti more, Cincinnati and Other Points.

ST. LOUIS, Oct. 9. - Flour firm and unchanged. Wheat was rather heavy this morning for awhile, and there was some trading at 1se decline, but not much business was done. Then the demand strengthened on stronger advices, and the market sold up 1 so. Later there was a relapse of 12c, from which there was little recovery, but the close was see above Wednesday. 4.55; all grades, \$2.35 @ 4.75. Sheep-Receipts, 1,060; shipments, 910, The market was steady. INDIANAPOLIS MARKETS.

Trade in Most Lines Improving-Fluctuations

in Values Few. INDIANAPOLIS, Oct. 9.-Inquiry among merchants in the various branches of trade gives evidence that there has been a marked improvement in trade since October came in, and it bids fair to still further improve, and with this fluctuations in values are few. Coffees are weak and are likely to go lower. Green as well as roasted grades have been too high for two years past. The demand for sugars is decreasing, and with this prices rule easier, but not quotably lower in this market. The provision market is active for October, prices in the main being steady on the descriptions which come most generally into consumption. Millers are dissatisfied with the situation. Wheat being relatively higher than flour, they are placed at great disadvantage, which disadvantage in time may be overcome. As yet they have made but little money this year. The produce market is active, and, with the more falllike weather, prices are slightly firmer. The apples now offered are of a better quality and command a better price, but still rule low as compared with last year. Irish potatoes and sweet potatoes are to be in abundant supply, and lower prices rather than higher are anticipated. Foreign fruits are only in moderate supply and prices firm. The market East is becoming glutted with poultry and lower prices are indicated. Eggs are in strong demand at the present high range of prices.

The local market was in much better tone to-day than on any preceding day of this week. Wheat-Different grades advanced 1c or more, and several grades of corn advanced &c. Oats are flat. Track bids today ruled as follows: Wheat-No. 2 red, 964c; No. 3 red, 92c; rejected, 83 a 88c; wagon wheat, 95c. Corn-No. 1 white, 571c; No. 2 white, 574c; white mixed, 58c; No. 3 white, 57c; one or two colors; No. 2 yellow, 52c; No. 3 yellow, 5142c; No. 2 mixed, 52c; No. 3 mixed, 51 1c: sound ear, 52 4c. Oats-No. 2 white, 30c; No. 3 white, 29c; No. 2 mixed, 284 c; rejected, 26@274c, lat-

ter for white. Bran-Local dealers are bidding \$12.50. Hay-Timothy, choice, \$11.2 No. 1 timothy, \$10.25; No. 2 timothy, \$7.50; No. 1 prairie, \$6,50; No. 2 prairie, \$6; mixed hay, \$5,50.

Odds and Ends. An easy method of covering jam-pots. and one which many housekeepers use, is to dip the cut papers into a little boiled milk and lightly press them round the pot, to which they will adhere, and in this way keep the jam quite air-tight.

Take up your geraniums before the frost catches them. It is best to put them in pots at once, as no benefit will be derived by allowing them to remain in the ground longer. A few cold nights may cause them to turn

yellow, as they are very tender. In setting your table, always have two teaspoons laid at each person's plate. This method will effectually prevent the constant passing of the spoon-holder or the handling of spoons in any other way, as one rarely has need for more than two at

the ordinary meal. Don't rub the baby's gums with a thimble when he is teething, under the impression that you are doing him a favor. You are causing him untold misery. Give him something like rubber to bite on, and if his gums are much inflamed show him to your physician, and let him lance them and end the child's misery.

s not an experiment; it has been tested and its enormous sale is due solely to its merit. It is made on honor, and good housekeepers say SANTA CLAUS SOAP "is a necessity." Don't let your dealer give you some other kind, if he hasn't Santa Claus, but insist on having only SANTA CLAUS SOAP. N. E. PAIRBANK & CO., Mfrs., Chicago, III
